SKILLS

Programming Languages: Java, Python, C++, Bash, JavaScript, HTML, CSS

Frameworks: React.js, Node.js, Django, SAFe, Waterfall

Tools: Git, Firebase, AWS, Docker

PROJECTS

NoteRacer Web Application | *JavaScript, HTML, CSS, Figma*

- Developed a dynamic and interactive web-based typing game named "NoteRacer", enhancing users' typing skills and educational content absorption.
- Integrated OpenAI API to automatically convert lecture recordings' transcripts into concise bulleted notes, providing users with meaningful and educational content for the game.
- Utilized JavaScript to create game mechanics, handle API calls, and process user interactions, ensuring a seamless and engaging user experience.
- Designed a responsive and intuitive user interface using HTML and CSS, ensuring optimal user experience across various devices and screen sizes.
- Collaborated in a version-controlled environment using Git, managing multiple branches and efficiently handling merges and conflicts.

WORK EXPERIENCE

RRHS FBLA Student Sticker Store

2021-2022

Co-Founder

Olympia, WA
